## MONETARY AND COMMERCIAL.

The excitement in the New York stock market during the week had the effect of slightly tightening money here, is elsewhere, but not sufficiently to interfere with business, and there was no actual advance in rates. In Baltimore money was quoted at about 6 per cent. through the week, and closed yesterday at that figure. At the Stock Exchange investment securities held their value well, and in some of the prime favorites outside figures prevailed. In State securities there were sales of \$16,500 Virginia new 3s at 67, 66½, and 66½, and \$920 Virginia ten-forties. The New York committee of the Virginia bondholders are understood to be engaged upon data in connection with the debt settlement question. The matter will doubtless shortly be laid formally before the Virginia authorities. Local shares are quoted as follows:

NEW YORK, Nov. 14.—The stock market this morning at the opening showed an ordinary active business which moderated before the end of the hour, and while the general list was fairly well held, there was great weakness in several of the leading shares. Opening figures were quite irregular, but generally within a small fraction of last evening's close. At 11 o'clock the market was fairly active and steady to firm at about opening prices.
